STRICTURE!

"I cure stricture without cutting or dilating, thus avoiding the horrors of surgery."-DR. COOK.

Our original and strictly modern treatment for Stricture cures the disease without cutting or dilating, thus avoiding the horrors of surgery. It is the only treatment that should ever be used, and the only one recommended by the legions of men who have recently been cured by it. It acts immediately and directly upon the Stricture, dissolving it completely and dislodging all diseased tissue, which comes away in strips or shredlike fiber, allaying all irritation and inflammation, and leaving the canal entirely free from obstruction and in sound and healthy condition.

Many Crack Amateurs Transferred by N. C. A. Board of Control. REPUBLIC SPECIAL. New York, March 22.—In the past winter several amateur cycling racers inadvertently "gave themselves away," in respect to their real relations to the game, and Thursday that which naturally might have been transferred from the amateur to the profes-sional ranks by the N. C. A. Board of Con-trol. "The mailed hand within a velvet glove" is being well exemplified by the body glove" is being well exemplified by the body that controls racing. Instead of notifying riders that there is evidence on hand to convict them and that they have been hurled precipitously into the ranks of professionals they get a politic letter, such as the following one, which was sent last Saturday to twelve riders:

Dear Sir: The season of 1801 promises to be the most successful ever experienced by cycle racing and the increased number of tracks necessitates an added number of professional riders.

Having attained a sufficient degree of proficiency in the amateur class and incidentally enjoyed benefits which under the rules, are not accorded to riders in this class, it is suggested that you apply for transfer to the professional ranks.

Wishing you a profitable inning in the pursuit of wealth and fame and expecting to hear from you in the near future, I am, very truly yours. Chairman of the N. C. A. Beard of Control. The transfers were announced officially yesterday as follows:

F. J. Cadwell, Elwood, Conn.: Lester Wilson, Pittsburg, Pa.; W. F. Wahrenberger, New York City; James Hunter, Newark, N. J.; John King, Newark, N. J.; J. C. Perry, Chicopee, Mass.; D. M. REPUBLIC SPECIAL.

Louisville, Ky., March 22.—Garry Herrmann, the crack 3-year-old of Charles Head Smith, will not start in the Montgomery Handicap or any event precedent to the Kentucky Derby. Announcement to this effect was made Friday by Charlie Hughes, the trainer of Garry.

It had been his purpose to take the colt to Memphis and give him two or three good races, but to-day Hughes changed his mind and will keep him here and prepare for the Kentucky Derby. Following his good work of yesterday the colt was given only a canter to-day. He is already in good form, and could easily have been it for the Memphis meeting. Hiram Scoggin will ship six horses to Memphis Sunday, including the Kentucky Derby candidate, Sennex Gloria. Tom Crabb has decided to keep his string here.

The Keptuckian, a noted horse in the McCafferty string, broke down in work this morning so hopelessly that he will never train agath. SPECIAL BY CABLE.

Paris, March 22—(Copyright, 1901, by the New York Herald Company.)—Mr. W. K. Vanderbilt's speil of bad luck has undergone a change. It is twelve months nearly since his colors have been seen in front, and it is pleasing to record that Edward McJoynt, the new American jockey for his stable, has been the means of breaking the ice at Maisons Lafitte to-day on Ontario II. In the next race McJoynt ran second on Lydo, one of Mr. Vanderbilt's crack fillies. There is little doubt that the public will become mad about American jockeys, as SPECIAL BY CABLE. become mad about American jockeys, as Rigby also rode two winners to-day.

"SKEETS" MARTIN'S LICENSE. ondon Mail Says That It Has Been

Tall Catcher Liable to Reconsider His Decision and to Quit Boston American League Club-Notes.

The St. Louis team will be shy several next month, but there will be enough firstheaded by President Robert Aull, resigned. | class talent at Manager Donovan's disposal to make as good or better showing than C. A. Tilles, Sam Adler, Louis A. Cella, P. ers, Fowell, Jones, Sudhoff and Hughey can be counted on, but Young will prob-Reyburn, Joseph Martin, Frank Miner and ably not return to his old allegiance. It was a question of money with Cy and the Robisons. Criger has signed with the Boxton American League Club, and "Rebbis" is one of the owners and players and the captain of the Baltimere club. Buelow has jumped to Detroit, and "Schreck" will be Criger's working mate. This leaves the locals without a catcher.

Criger was tempted away by a \$2,800 con tract. Good money that, but Louie is a great catcher, and is as capable of carping that sum as any backstop in the business. He can't coach a pitcher as well as "Robbie" aces, but he has the big fellow beaten a block in a mechanical way. If creed for gold tempted Louis away, why will not love of turns cause him to return? Maybe he'll keep faith with Collins, but an Eikhart, Ind., friend of the Sporting News writes that the tall boy has on offer of \$3,000 from the Robisons under consideration, and it will not surprise his friends and relatives if he accepts it. The en-ticing feature of this contract is that it is not for a single season, but a term of years. There are twins in the Criger family, and no one can foretell what will happen in a household from year to year. More doublets will add to Louis's responsibilities, and it will be highly satisfactory to him, from a paternal standpoint, to have a St. Louis contract calling for \$3,900 a year up to and including the World's Fair season. Cuppy, his partner in the saloon year-ture, is wary about advising his business associate, but he does not hesitate to as-sert that a ball player's first duty is to himself, and the better he fixes himself financially while in the game the less will be his regret when his career closes. Cuppy speaks as one inspired, as he is without an engagement for 1911. Hence, Criger re-grets the pitcher as an oracle. gards the pitcher as an oracle.

Burkett was bluffing about giving the Robisons two more days to come to his terms, and will once more be a member of the firm of "me and Bob and Held." Mike Donlin is en route from California and his heart will be in his work this summer. Donovan's playing will not be affected by his managerial cares. With two of this quartet certain and the chances favoring the return of the pair, there is no need of worrying about St. Louis 191 outfield.

The infield needs patching up. Padden will be a success at second, and if Wallace is switched to third, where he belongs, Dick can deliver the goods at shortstop. Krueger stands a better show of making the record sack than Child does. McGann is an earnest first baseman, but many think that Donlin should be played regularly at the initial corner. This could be done if Burkett and Heldrick report. An extra outfielder could be secured in exchange for Dan.

So if Criger can be induced to leap back

"Lefty" Jones of Golden has signed a contract to play with the St. Louis National League basebail team at a salary of \$2.700. Jones has been holding out for an increase in salary and refused to sign until he got it. A good deal of talk has been going around that he would desert the National League and go over to the America, but this is all settled by his signing the St. Louis contract. He has been taking excellent care of himself and is in fine condition. For the past seven weeks he has been coaching the State School of Mines ball team. He will leave for St. Louis about April 1.—Te'egram from Golden, Colo.

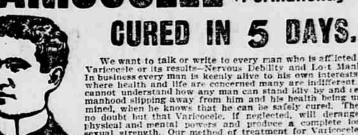

Jones will get a big increase over his 1900 salary, but it is not probable his contract for next season will call for \$2.500. This would mean a \$1,000 raise for the St. Louis southpaw. Some ball biayers question his gameness, and declare that he is none too steady at critical stages. "A great pitcher is Jones." said one of the Perfectos last season, "If he only had Cuppy's grit."
